

Remarks

Applicant respectfully request reconsideration of this application as amended. Claim 13 and 21 have been amended. No claims have been cancelled. Therefore, claims 10, 12-19 and 21-27 are presented for examination.

Claims 10, 12-19 and 21-27 stand rejected under 35 U.S.C. §101 because the claimed invention is directed to non-statutory subject matter.

35 U.S.C. 101 recites:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Applicant submits that the present claims are directed to statutory subject matter. because the claims each recite a useful process. Particularly, the claims provide a practical application of an abstract idea because the elements produce a useful, tangible and concrete result (e.g., compiling of a computer program). Therefore, the claims are in proper condition for allowance.

Claims 13 and 21-27 stand rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant submits that claims 13 and 21 have been amended to appear in proper condition for allowance.

Applicant submits that the rejections have been overcome and that the claims are in condition for allowance. Accordingly, applicant respectfully request the rejections be withdrawn and the claims be allowed.

The Examiner is requested to call the undersigned at (303) 740-1980 if there remains any issue with allowance of the case.

Please charge any shortage to our Deposit Account No. 02-2666.

Respectfully submitted,
